### **COVID-19: Effect on Licensing Exams**

In light of the Ministry of Health directives, the Israel Security Authority (ISA) is assessing whether to hold the licensing exams planned for May-June 2020.

If the developments in the near future indicate a need to defer or cancel the exams, the ISA will publish an announcement and will send notifications to those who have already registered for the exams.

If the exams do not take place as scheduled, it will be possible for those registered to receive full reimbursement for the exam registration fee or to transfer the registration to the next exam date.

The final date for registering for the licensing exam remains as it was – March 29, 2020.
